

Warren Vincentz and his running mates do not deserve your vote in this year's municipal election. Don't just take our word for it, let's look at what Republicans are saying about this year's election...

Ridgfield Republican

## Ridgfield Republican Club ("RRC") 2011 General Election Position Statement

HOME

As President of the RRC, I want to state our position with regard to the upcoming election for the benefit of the 250 Republicans who voted for Team Severino last June as well as for the rest of our borough's voters. There has been serious discussion among the RRC club officers and members at large about this serious issue. As a result, we reached a clear consensus that we cannot support the Avery backed Republican ticket headed by Warren Vincentz. Our principles rest on the fact that we respect the Ridgfield resident and we put our citizens' interest first. Therefore, we cannot lend our backing to a group which considers Ridgfield residents stupid and which places its own self interests ahead of the well being of our town. Unlike Warren Vincentz, who will do anything or say anything to get elected, we will not follow Bob Avery, the man quoted in The Record stating that "Ridgfield has failed its collective intelligence test."

**EVEN REPUBLICANS AGREE:
